

To Our Canadian Troops

(Dennis Leclair@2009)

Wonder what my family is doing back home
Called to duty feeling lonely missing Canada
Away from my home
My brothers and sisters doing what's right fighting for
freedom Painful times missing my friends away from my
home

Here's a thank you to our Canadian troops
Believing in their right to be free like me and you
Sense our thoughts hear our prayers in this song we say
You're Canadian and you're strong wishing you home safe

Heard your song thinking 'bout us feel your hope it means
So much missing Canada away from my home
I want you to know that I'm home in your heart doing what's right
Doing my part missing my friends away from my home

Here's a thank you to our Canadian troops
Believing in their right to be free like me and you
Sense our thoughts hear our prayers in this song we say
You're Canadian and you're strong wishing you home safe

Wishing brothers and sisters home safe
Wishing sons and daughters home safe
Wishing husbands and wives and moms and dads home safe

Here's a thank you to our Canadian troops
Believing in their right to be free like me and you
Sense our thoughts hear our prayers, in this song we say
You're Canadian and you're strong wishing you home safe

I want you to know that I'm home in your heart
Fighting for freedom doing my part
Missing my friends away from my home

Here's a thank you to our Canadian troops
Believing in their right to be free like me and you
Sense our thoughts hear our prayers, in this song we say
You're Canadian and you're strong wishing you home safe

Wishing brothers and sisters home safe
Wishing sons and daughters home safe
Wishing husbands and wives and moms and dads home safe
To our Canadian troops we're so proud of you
As you stand on guard for thee
